**Response to Restriction Requirement**

Sir:

In response to the Non-Final Office Action dated 17 March 2008, applicants hereby elect, with traverse, Group I, claims 1-2 and 6-12, drawn to compounds of formula (I) wherein Y is N, corresponding composition and method of use. Claims 1-2 and 6-12 encompass the elected invention.

**Remarks/Arguments**

Applicants respectfully traverse the requirement under 35 USC 372 on the ground that the presently claimed invention meets the unity of invention requirement.

We submit that there is a special technical feature that unites the presently claimed compounds and that distinguishes them all from the prior art.

The presently claimed compounds form a group of compounds that share a common core structure, which has the following essential features:

- i) An aromatic azine (i.e. a pyrimidine or pyridine ring);
- ii) An azole (i.e. a 5-membered ring containing nitrogen and an additional heteroatom G, which ring is limited to an imidazole, oxazole or thiazole);
- iii) An unsaturated linker group L as defined;
